

MARYAM JAVAID

AI FLUENCY INTERN @ FLYRANK | ASPIRING AI ENGINEER | PYTHON DEVELOPER

Gmail: maryamjavaidbcs164@gmail.com | LinkedIn: www.linkedin.com/in/maryamjavaid-02b175344 | GitHub: https://github.com/maryam-javaid

PROFESSIONAL SUMMARY

Aspiring AI Engineer and Python Developer with hands-on experience in building AI-powered automation workflows, AI agents, and productivity solutions using Python and n8n. Currently serving as an AI Fluency Intern at FlyRank, where I am developing expertise in artificial intelligence, prompt engineering, and real-world AI applications. Passionate about leveraging AI and automation to solve practical problems and create impactful solutions.

EXPERIENCE

AI Fluency Intern | FlyRank AI

Current

- Participating in practical AI learning programs and industry-focused assignments.
- Developing skills in prompt engineering, AI tools, and AI-assisted workflows.
- Exploring real-world applications of artificial intelligence across business and productivity domains.
- Strengthening problem-solving and analytical thinking through AI projects and research activities.

PROJECTS

StudyNest – Full-Stack Learning Management Platform

Developed a full-stack web application designed to help students organize study materials, manage academic resources, and streamline their learning workflow. Implemented user authentication, content management features, and an intuitive user interface for enhanced learning.

Tech: Python, HTML/CSS, JavaScript, Database Management, Web Development

Multi-Agent AI Debate Arena

Built an AI-powered system that generates structured debates on user-defined topics using LLMs and prompt engineering techniques.

Tech: Python, n8n, OpenRouter API

Brand Reputation Monitoring System

Developed an automation workflow that collects and analyzes brand-related information for sentiment tracking and reporting.

Tech: n8n, APIs, AI Models

Research Paper Analysis Workflow

Created an AI-assisted workflow to extract, organize, and summarize insights from research papers.

Tech: Python, AI APIs, PDF Processing

TECHNICAL SKILLS

Programming: Python, SQL (Basic), HTML/CSS

AI & LLMs: Prompt Engineering, Large Language Models (LLMs), AI Agents, NLP Fundamentals, OpenAI API Integration

Automation: n8n, Workflow Automation, API Integration, Webhooks, Google Sheets Automation

AI Tools: ChatGPT, Claude, Gemini, Perplexity, OpenRouter

Tools & Platforms: Git, GitHub, VS Code, Postman, Canva

Design: Infographic Design, Presentation Design, Visual Content Creation

EDUCATION

Bachelor of Computer Science (BCS)

COMSATS University Islamabad, Wah Campus

Expected Graduation: 2028

LANGUAGES

English

Urdu
